*Welcoming a new season of transformation  
and natural beauty.*

The new Collection 2023/2024 celebrates the slower, more contemplative pace of the season, encouraging us to enjoy the moments and make the most out of what we have. It's a great time to reflect and embrace the seasonal changes of the nature that surrounds us.

Our new Collection 2023/2024 is a treasure trove of discoveries inspired by the very local nature to deeper and more enchanting depths of the forests. Discover a new range of flowerpots, vases, and interior in new organic shapes, with surprising details as well as natural, living structures and nuances.

We hope this collection will inspire you to bring the nature inside and match different colors and textures, just as nature naturally mixes everything in the wild.

Towards the end of this catalog, you will discover a limited assortment of Christmas items that will create a base for this delightful time of the year.

Stunning ceramics glazed in amazing colors using various glazing techniques. The glazed items in this collection are made with "reactive glaze," which means that each item is unique and a little piece of art. Some of the surfaces will evoke the image of running water and the soft blue sea, while others will adorn your home with an artistic look.

Surfaces and structures play a significant role in this season's ceramics. Each item is unique, featuring textures that closely resemble bark and stone. Inspired by nature's endless nuances, structures, and shapes, the ceramic collection brings the forest into your home. Style the wonders of the forest with wild stems and branches to mimic nature's ways.

We call this lovely addition to our interior collection "moving lights." No matter the season, it's always nice to have a cozy light outside or in the living room window. The lights are wireless, so they can easily be moved around and provide light wherever you need it. Our moving lights come in different colored glass lamps and small jars with lids and handles. We recommend hanging the jars in your garden trees for a magical evening look.

In modern home decor, sculptural items made of ceramics and glass continue to be essential. They add unique personality and an authentic feel to any living space. This season, we offer a variety of flowerpots, vases, and decorative pieces that are inspired by the beauty of mushrooms growing on trees and the intriguing shapes found in the depths of the ocean. Make a statement with these new and stunning sculptural beauties.

Achieve striking contrasts by styling this season's different ceramics with interior designs in other materials and colors. The latest ceramic glazes boast a shiny, almost dripping texture, creating a wet look. For a refreshing appeal, mix and match these glossy ceramics with matte, textured surfaces.

## CREATE SOOTHING SURROUNDINGS

The final touches of interior styling can be found in the smallest details. Use stylish metal boxes for storage or magazines and add vases and sculptures for both functionality and style. A wicker or metal lantern placed in the window can also add warmth and coziness to your space. By incorporating these elements, you can create a soothing and cosy setting that is both visually appealing and practical.

**JEAN & DOROTHÉE D'ORGEVAL**  
BOUISSELON

...de la région de la vallée de la Loire, à la recherche d'un lieu où vivre et travailler. Ils ont découvert un petit village de caractère, Bouisselon, où ils ont acheté une maison à rénover. Leur projet a été soutenu par le conseil régional de la Loire, qui a financé une partie des travaux. Ils ont également bénéficié de l'aide de la commune de Bouisselon, qui leur a permis d'acquiescer à la demande de permis de construire. Leur projet a été un succès, et ils ont pu réaliser leur rêve de vivre dans une maison de caractère, dans un cadre magnifique.

Decorative figurines add charm and personality to your home. They can evoke feelings of nostalgia, playfulness, or even serenity, depending on the style.
