Midnight Grapes

Midnight Grapes draws you into a world of rich contrasts and luxurious tones. Deep burgundy, aubergine and dark purple blend effortlessly with black, bronze and touches of gold. The result is a theme that feels dramatic yet elegant — moody in all the right ways.

‘Our lampshades
are handmade
in our atelier in
Noordwijk’

With an enthusiastic team, we
annually produce more than
180,000 lampshades by hand

Scan the code
And we'll show you the
production process.

Handmade lampshades

New season, new fabrics for the lampshades. Samples of all fabrics are available.

Check the complete range of shades on light-living.com

An advanced cutting table cuts all sorts of different materials and sizes. This makes up for a produce of 900 shades a day.

To ensure extra firmness, smaller lampshades are sown together. Larger lampshades are glued together with a machine.

Light & Living, originally a lampshade company

In our atelier in Noordwijk we develop and produce - as one of the few companies in the Netherlands - handmade lampshades. Twice a year, we make a seasonal change. We look at which fabrics fit on our lamp bases. We make sure to be on top of the latest trends by frequently checking new fabrics at our suppliers and developing our own designs. New trends are mostly based on material, print or colour.

Many variations possible

Introducing our shades into the themes of our collection, we select our colours and designs carefully to create perfect combinations. It is important to us to always test a fabric with and without lighting so we can make sure both look amazing. We produce about 3,500 lampshades a week. Annually we produce 180,000 lampshades by hand in our atelier in Noordwijk. This makes us immensely proud!
