SVANEFORS

QUALITY OF SWEDEN

Textiles & patterns that differ, but always one thing that unites, Swedish design. Interior details that match & everything has the special feeling that is Svanefors signature, natural and simple.

A softer world, since 1956.

Synthetic- or Feather?

A feather cushion gives an exclusive feeling and fills up the cushion cover nicely, while a synthetic cushion is a more affordable alternative.

All ours inner cushions have outer fabric in soft cotton cambric which means they do not leak feathers or fibers.

CURTAINS

HANGING CURTAINS

Most of our curtains are equipped with multibands, which means that you can put up the curtain in several different ways. Here are four different ways to hang the curtains:

Wrinkle band hook

If you have a curtain rail, hooks are the best way to hang the curtains, as they slide smoothly into the rail and make it easy to adjust.

RRP: 306 DKK

Wrinkle band hook
0725-89-001
White 26mm / 20 PCS
RRP: 2.2 EUR
RRP: 17 DKK

Multitape

With multitape, you can easily put the curtain up on a rod without additional accessories. Either the rod is threaded through the entire channel or, to get larger folds, through the slabs.

Transparent 7cm / 3m
RRP: 9.2 EUR
RRP: 69 DKK

Hook low

Used for rail or curtain rod with curtain ring and eyelet. These have a low mount that makes the curtain rise higher and hides more of the rail or rod.

RRP: 701 DKK

Hook high

Used for rail or curtain rod with curtain ring and eyelet. These have a high mount which means that the curtain comes down lower and more is shown by the rail or rod.

Hook high 10P
0726-89-010
Grey 55mm / 20 PCS
RRP: 6.9 EUR

Five tips when choosing curtains:

- Hang the curtains high. It make the room feels bigger.
- Curtain rail makes it easy to pull the curtain back and forth and is a convenient choice for making the curtains hang right from the ceiling.
- Hang wide. The curtain rod or rail should be longer than the width of the window, then you can place the curtains on the side of the window and maximize the light entry.
- Choice of material and color affects the impression to the greatest extent, tone on tone, patterned, darkening or clear?
- Choose the right length, choose a pair that ends just above the floor or – for a more casual feel – a longer pair that lays on the floor.

Easily shorten the curtain by ironing on quick hemming tape.

Jane Curtain in grey

Combine blackout curtains with a thin, sheer curtain, preferably tone on tone.

Jane Curtain in brown and Ana in beige

BLACK OUT

For a good night's sleep, friday coziness in the living room or morning rays in the bedroom. With the black out curtain you can easily adjust the light. Black out curtain provide 100% black out regardless of color. Woven black threads absorb the light and ensure that no light is let through.

Hotel feeling
Get hotel feeling in the bedroom and effectively shut out the light with stylish curtains.

Nice structure
The fabric on Sten contains 30% linen, which gives a beautiful structure.

DIM OUT

A good way to adjust the light in a room is to use dim-out curtains. Dim out curtains let some light through, provides a more subdued light entry and a softer atmosphere.

DIM OUT
