

OUTDOOR 2027

collection

GUS

LAUVRING

*Two brands, one
Scandinavian outdoor lifestyle.*

Each bringing its own distinct character and expression, **GUS** and **Lauvring** share a passion for Scandinavian outdoor living. For our 2027 range of outdoor products, we have created one catalog containing both brands, making it easier for you to explore the full range of products for a Scandinavian outdoor lifestyle.

Different in character, yet naturally complementary, GUS and Lauvring offer two perspectives on Scandinavian outdoor living:

GUS is defined by clean lines, simplicity, and a contemporary Scandinavian aesthetic. Natural textures and carefully selected materials create a versatile collection where timeless design meets modern functionality. With a refined and understated expression, GUS provides a strong foundation for creating harmonious and inspiring outdoor spaces.

Lauvring brings a warmer, more decorative dimension. Inspired by the Scandinavian landscape and the joy of spending time outdoors, the collection embraces tactile surfaces, organic shapes, and characterful materials. Glazed and rustic ceramics, naturally burned terracotta, metal, furniture, and garden décor create an inviting and expressive universe with a close connection to nature.

Together, the two brands create a broader and more versatile assortment, making it easy to combine materials, textures, shapes, and styles to create outdoor spaces with both harmony and personality.

PLANT POTS

Ceramic & concrete flowerpots

Our high-quality flowerpots are designed for outdoor use and made to last

Each pot features a drainage hole and is resistant to both UV, heat and frost.
Many are handmade, so slight variations in glazing and color may occur.

To protect your plants and pots, keep the drainage hole clear and fill the bottom with 1/3 Leca to improve drainage and create a healthy environment. The pots can stay outside all year. However, to extend their lifespan, we've included some winter care tips on the next page.

WINTER CARE TIPS FOR OUTDOOR FLOWERPOTS

All our outdoor flowerpots are frost, heat, and UV resistant, which means they can be placed outside all year. As the winter season approaches, it is essential to provide proper care for your flowerpots to ensure they will not get frost damage and last for years to come. Here are some guidelines on how to handle your outdoor flowerpots during winter:

1

Clear the drainage hole at the bottom to allow water to escape freely. A clogged drainage hole can lead to water accumulation at the bottom of the pot, potentially causing frost damage and root rot.

2

Improve the drainage capability of your flowerpot by adding a layer of 1/3 Leca at the bottom. Leca provides air to the soil, preventing waterlogging and ensuring that excess water can easily drain out. This layer also acts as insulation for the roots of your plants.

3

Elevate the flowerpot by at least 2cm to help create space between the pot and the cold ground. This small gap minimizes the risk of the pot's material cracking due to freezing temperatures. You can use small bricks, pot feet, or wooden blocks to achieve the desired elevation.

4

Position your flowerpots strategically during winter. Avoid exposing them to areas where they might accumulate a lot of snow or where water can gather around the bottom.

PLANT GUIDE FOR OUTDOOR FLOWERPOTS

1

Make sure the hole in the bottom of the pot is cleared.

2

Fill the pot with 1/3 Leca for excess water to run out.

3

Raise the pot 2 cm during winter to avoid frost damage.

RECYCLED PLASTIC

Planters & flowerpots

Recycled plastic

Our outdoor plant pots made from recycled plastic combine practical functionality with a more responsible use of resources, giving existing plastic materials a new purpose.

Their light weight makes the plant pots easy to move and rearrange, even in larger sizes. Recycled plastic is also durable, easily maintained and resistant to everyday wear, making it a practical and versatile choice for your outdoor space.

TERRACOTTA

Handmade terracotta flowerpots

Handmade and durable terracotta flowerpots for outdoor use

Our beautiful terracotta pots feature a drainage hole and are resistant to both heat and frost. They are silicone-coated on the inside for long-lasting durability. Each pot is crafted by hand using traditional techniques, so slight variations in shape and color may occur.

To protect your plants and pots, keep the drainage hole clear and fill the bottom 1/3 with Leca to improve drainage and create a healthy environment. The pots can stay outside all year. However, to extend their lifespan, we’ve included a few winter care tips on page 8.

Stylish and cost-efficient, our terracotta pallet display comes with 694 individual terracotta pieces, ready for display in your store. Display whole pallet, Toscana terracotta (422195-11) Siros plant staircase, rust (534162)

Durable basic Italian terracotta flowerpots

Our popular terracotta pots are made in Italy from pure, virgin clay and contain no additives or artificial colors. They are fired at very high temperatures, which makes them exceptionally durable, frost-resistant, and built to last for years while retaining their natural warmth and texture.

All materials are 100% biodegradable, making these pots an eco-friendly choice. To ensure the longest lifespan, we recommend proper drainage and following our winter care tips.

BASKETS

Baskets & planters

Polyrattan and natural wicker baskets for everyday use

Our basket collection offers both durable polyrattan and handcrafted natural weave designs. Polyrattan baskets are highly resistant to sun, rain, and wind, making them perfect for outdoor use. They withstand UV rays without fading, are water-repellent, and require only minimal care – just wipe with a damp cloth to keep them clean.

Alongside polyrattan, our handwoven natural baskets bring warmth and authenticity. Each piece is crafted with care, highlighting the beauty of traditional craftsmanship and adding timeless charm indoors or outdoors.

Bird feeders and bird baths make your garden feel more vibrant, peaceful and connected to nature. Inviting birds to visit, they bring life, movement and birdsong into your surroundings. Place them among flowers, shrubs or on the patio to create beautiful focal points that combine decoration with function.

FURNITURE

Tables, seating & storage

Outdoor furniture for every season

Our outdoor furniture collection is made to complement life outside, creating inviting spaces you can enjoy throughout the year.

From timeless designs in polyrattan that resist fading in the sun to elegant metal pieces that naturally develop a unique patina over time, every detail is chosen with care.

While our furniture can be enjoyed outdoors all year, we always recommend a little extra care during the winter months. Covering your furniture, or bringing it inside when not in use, will help preserve its beauty and ensure it remains a cherished part of your outdoor living for many years to come.

ESPALIERS

Garden espaliers, rose arches, Et displays

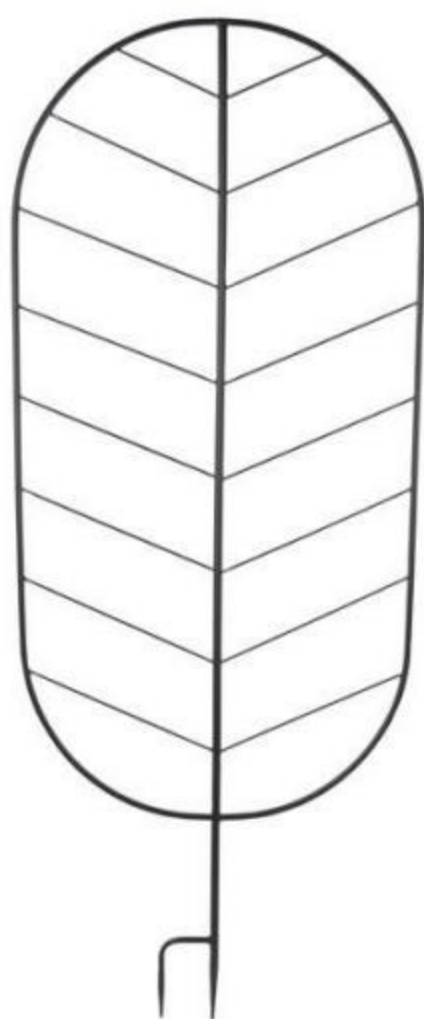

Elevate your plants & shape your garden

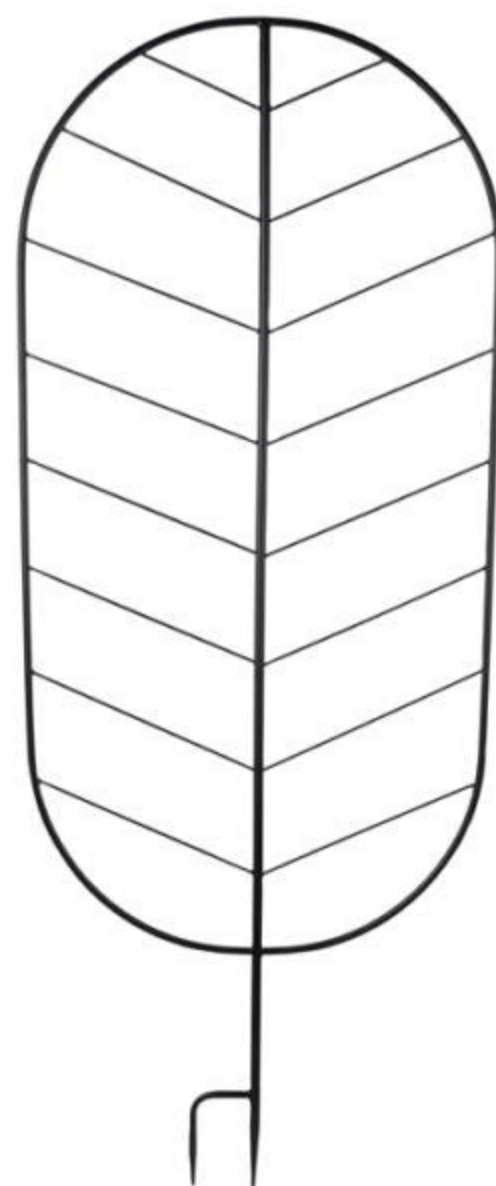

Espaliers and trellises provide stability and guidance for plants, but also serve as artistic features in your garden design. Use them to frame green walls, create small rooms, or form cozy corners that add both charm and structure to your outdoor space.

GET IN TOUCH

We love meeting our customers and showcasing our latest collections. Throughout the year, you can meet us at fairs or join our in-house events, where we welcome you to inspiring days in our showrooms across Denmark, Norway, and Sweden. Our showrooms are open for visits all year round. Please contact one of our sales representatives or customer service to make an appointment if you would like to visit us.
